What is Splash Pads for Bellevue?

In 2011, a group of volunteers from Bellevue formed a committee and set a goal to install splash pads in some of our Bellevue city parks. This committee will promote, design and fund the splash pads for the Bellevue area.

What is a Splash Pad?

A Splash Pad is a dynamic, fully automated, zero-depth aquatic play area for lots of fun for the entire family, no matter what your age or ability.

- Splash Pads are designed in line with the American with Disabilities Act (ADA) with very easy access for children of all ages and abilities to play in water during the warm summer months.
- Splash Pads provide interactive play. An actuator must be pressed to initiate the aquatic features. Four features are active at one time. The next time the actuator is pressed, four different features are activated.
- Splash Pads are programmable: Splash Times can be controlled so they do not run during school hours.
- Splash Pads do not require staff to be present.

Why do we need Splash Pads?

Bellevue is a thriving community! Splash Pads for Bellevue will provide NEW and ENTERTAINING activities for our youth.

Several surrounding communities have installed splash pads in their parks that have proved to be very popular. Bellevue residents deserve the same opportunity presented in other communities for family and youth entertainment. Quality Splash Pads will attract people from other communities to Bellevue.

The First Bellevue Splash Pad

The first splash pad will be installed at Everett Park on Betz Road. This is a central location with a water supply, three parking lots and a pavilion. The Splash Pad will be able to remain open through August even after the school year begins.

Design

Splash Pads for Bellevue is currently working with two Nebraska vendors: Crouch Recreation and Outdoor Recreation Products. The two images on the front cover are courtesy of these vendors.

Fund Raising

Help make this dream a reality. Splash Pads for Bellevue needs to raise \$150,000 to install a quality splash pad at Everett Park. Your donation to Splash Pads for Bellevue is tax deductible. The money raised for Splash Pads for Bellevue will be used to install and maintain the pads for Bellevue.

Donations are Tax Deductible

Splash Pads for Bellevue created a Designated Fund at the Midlands Community Foundation. This partnership allows the Splash Pad committee to fund raise while Midlands Community Foundation manages the designated fund. This ensures your tax deductible gift will support this charitable project providing lasting benefit to your community. Please make checks payable to:
